*I feel the site is not suitable for this project. It's location is within 750 metres of a child care facility not to mention less than 3 kilometres from all schools in Moss Vale. The proximity to these children is problematic and increased traffic dangerous.*

*The area proposed has been zoned at a different time and while plastic recycling is important the community of Moss Vale and the Southern Highlands will be heavily impacted.*

*The roads in this area are not designed for this type of development and traffic will not cope with the trucks required to sustain the facility.*
