

CASE PROCESSING TIMES QUARTERLY REPORT (JUNE 2022)

1 July 2022

The Statement of Expectations for the Independent Planning Commission identifies key performance indicators (KPIs) to ensure the ongoing timeliness and quality of its decisions.

The Commission is required to monitor and report on its KPIs in its annual report and quarterly on the Commission's website for state significant determinations.

Timeframes for decision-making

For state significant developments, the Commission was expected in the April-June 2022 quarter to meet the following timeframes:

- **5 weeks** (35 calendar days) for **routine determinations** (no public meeting or hearing) and modifications with political donations;
- **8 weeks** (56 calendar days) for **determinations subject to a public meeting**; and
- **12 weeks** (84 calendar days) for **determinations subject to a public hearing**.

Some of those timeframes have now been reduced by the coming into effect of a new Statement of Expectations for 1 July 2022 – 30 June 2024 (see the new Statement of Expectations [here](#)). As this report is reporting on performance for the April-June 2022 quarter, the previous KPIs in force before 1 July 2022 have been applied.

Performance against these KPIs is to be reported as a 12 month rolling average, with timeframes to be calculated from the date of the provision of the Assessment Report by the Department of Planning and Environment (the Department) to the date of determination by the Commission, excluding any time where the Commission has requested further information from the Department or the Applicant, any time that the Department spends considering any request by an Applicant to amend or vary the application, and the Christmas/New Year period.

Case processing times – quarterly results

As at 30 June 2022, the Commission is beating the applicable timeframe KPIs for all case types:

- Routine determinations: **28 days**
- Determinations subject to a public meeting: **50 days**
- Determinations subject to a public hearing: **46 days**

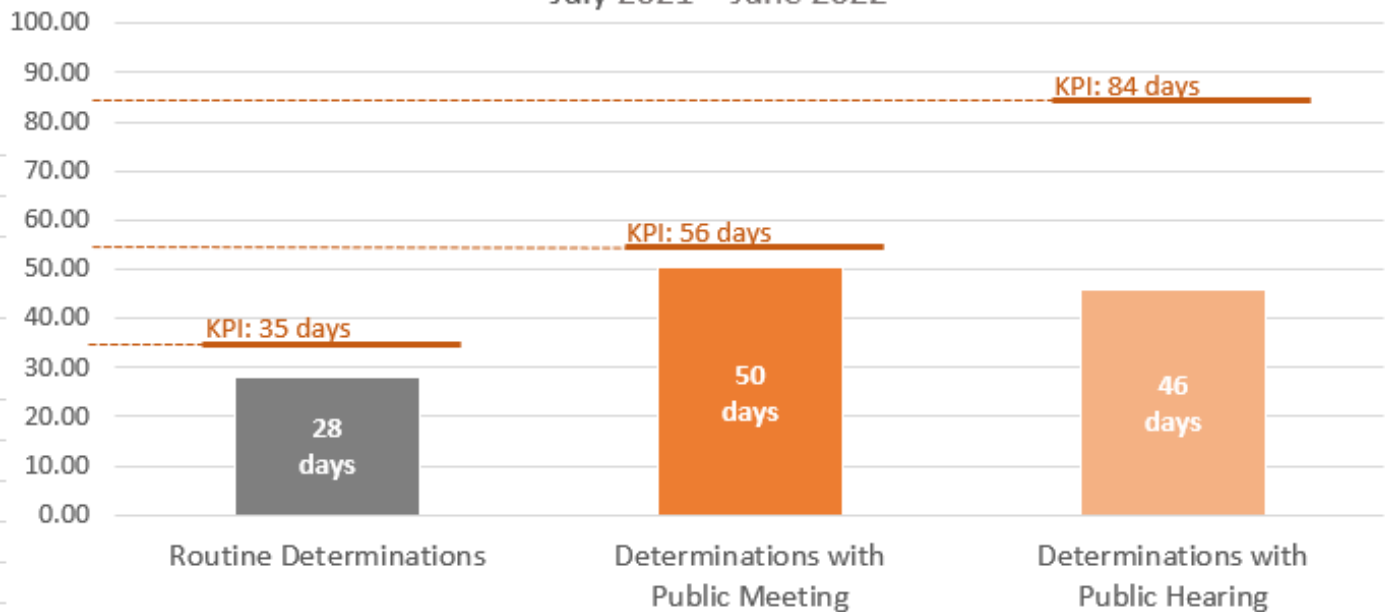

In line with the Minister's Statement of Expectations, when calculating the Commission's performance against relevant timeframe KPIs, the Christmas shutdown and any time where the Commission has requested and is awaiting further information from the Department or the Applicant is excluded from its case processing times.

Graphs 1 and 2 overleaf show the Commission's performance against the KPI timeframes for 30 June 2021 – 30 June 2022. Graph 2 also shows the Commission's total average case processing time (without information request exclusions or the shutdown period factored in).
