Date: Tuesday, 23 February 2021
Time: 9.00am - 10.00am
Meeting Place: Zoom Video Conference

ATTENDEES

Commission Members: Prof Snow Barlow (Chair)
Peter Cochrane

Office of the IPC: Stephen Barry Planning Director
Brad James Principal Case Manager

Department: Mike Young ED Energy & Resource Assessments
Matthew Sprott Director Minerals and Quarry Assessments

AGENDA

- Surrender of consent
 - Effectiveness of existing conditions
 - How the surrender will work in practice
- Noise impacts
 - Construction activities outside of standard hours
 - Private receivers subject to acquisition or mitigation
- Greenhouse Gas Emissions
 - Applicant's estimates
 - Overview of Department's assessment of Scope 1 and Scope 2 emissions
 - Department's views on the mitigation measures proposed to be implemented for Scope 1 and Scope 2 emissions
 - Fugitive gas emissions and potential for further mitigation
- Visual impacts
 - Mitigation able to be requested by specific receivers (see recommended condition B73). How this works in practice?
 - What is an example of a reasonable and feasible mitigation measure?
- Blasting and vibration
 - Assessment of blasting impacts on Aboriginal sites
 - EPA recommendation for 1 blast per day - 2 imposed under recommended consent
- Recommended conditions
 - Alignment between Agency advice on conditions and Department's recommended conditions

Meeting Closed:
