Parraween Street is an area filled with young families and workers, located close to various excellent schools (5 minute walk to Redlands for example!), shops and close to the city via public transport. This makes it extremely well suited to families and young workers, who would be displaced if this project goes ahead. To turn this wonderful, vibrant and young community into an area for the elderly would be a real shame and a waste of a location so well suited to the needs of our young families in our Cremorne community. Not to mention the historic value of the cottages, whose heritage and beauty would be destroyed by this proposed development.
