## Moss Vale Plastics Recycling Facility

### ***Repoly Pty Ltd (formerly Plasrefine Recycling Pty Ltd) v Independent Planning Commission & Ors (Land and Environment Court proceedings 2025/264451)***

The Land and Environment Court has listed the above proceedings for a Court-ordered conciliation conference in accordance with [section 34 of the Land and Environment Court Act 1979](#). The conciliation conference will be presided over by a Commissioner of the Land and Environment Court.

The conciliation conference will commence at or near the site of the Project at **10am on 17 November 2025**. The Commission will provide an update when a precise location is confirmed by the Court.

At the beginning of the conciliation conference there will be an opportunity for local residents and other non-expert participants to make verbal submissions about the development application.

Following any verbal submissions made by local residents and non-expert participants, the parties to the proceedings will proceed to the conciliation phase of conference where they will have confidential discussions facilitated by the Commissioner. Participation in the conciliation phase is limited to the parties only (including their representatives and experts).

To provide for the “just, quick and cheap” disposal of the proceedings, the Land and Environment Court’s [Conciliation Conference Policy](#) dated 28 November 2024 advises that the number of people speaking on-site should be limited. The parties and the Court will have access to copies of any written submissions that residents and others have provided to the Commission and the Department in the past.

If you wish to make a verbal submission at the on-site phase of the conciliation conference, please make an expression of interest to the Commission with the following information:

1. Your contact details (email, phone number, address)
2. Whether you represent any other person or group
3. Matters or topics that you wish to speak on

Please send your expression of interest by email to [ipcn@ipcn.nsw.gov.au](mailto:ipcn@ipcn.nsw.gov.au) with “Repoly Conciliation Conference” in the subject heading by **5pm on 10 October 2025**.

Please also note the 22 August 2025 amendments to the application since the commencement of this appeal, which can be accessed on the Commission’s website under “Appeal related

**Office of the Independent Planning Commission**

documents" here: <https://www.ipcn.nsw.gov.au/cases/2024/10/moss-vale-plastics-recycling-facility>

In the event that a large number of people contact the Commission wishing to speak, there may be limits on the numbers of people who can speak. In line with the Court's [Conciliation Conference Policy](#), in most circumstances a maximum of six people should make a submission on-site, and priority may be given to residents directly affected by the proposed development, such as those living adjoining or directly opposite the site. Where there are wider contentions that people wish to articulate, such as impacts on the character of the area, or wider traffic implications, then a representative person raising this contention should make the submission on-site.

Confirmed speakers will be contacted by the Commission after 10 October 2025 to confirm arrangements as well as the Court's expectations, including those set out in the Court's [Conciliation Conference Policy](#) at item 12.
