To whom it may Concern

These are the reasons why I want the Minarah College proposal at Catherine Field rejected

- * Traffic already busy, especially, at school student drop off and pick up times
- * concerns about children safety
- * no foot paths
- * Will a pedestrian crossing be needed
- * Parking for school children drop off and pick up with safety in mind
- * Drive way access
- * Drive way access for neighbours and local
- * Concerns over issues regarding left and right hand turns would affect Deepfields

Chissolm rd, Catherine Field rd and Springfield road.

- * Number of students have been decreased since approval, but the Building sizes have not been reduced in size.
- * Local residents in concerns of majority will not benefit from it at all, in fact I can see it being an absolute neusence in more than just one way.
- * About 98% of students live out of the area.
- * Submissions from out of towners, including a long way away have the same pull as residents in the area, and they don't even live in the area, so how could it bother them, in a negative way.
- * Roads will deteriorate faster than they would normally, from the extra use because of the College.
- * Will transformers be on their own site
- * Possible devalued property, regarding high voltage lines needing 30 to 40 metres Restricted area
- * up grade to local roads, whose paying for that?

Page three

- * Parking for staff, busses and students will need a lot of room on college grounds.
- * Major concerns of children safety concerning Sverige under sports ground with hygiene in mind.
- * Flood waters from hard surfaces in college grounds with run off in mind affecting the sides of the road, the road and flooding neighbours driveways.
- * Noise affecting the neighbours of the college who are used to a quiet neighbour hood.
