Martins Creek Quarry Project	SUB-25071043	31/07/2021	No	Object
Attachments  161123_SI Submission on MCQ SUB-25071043 Submission Attachment Siobhan Isherwood				
Comment / Message I object to the approval of this project and ask that it is not approved. Despite reduction in the project scope the environmental and social impacts of this project are far too large. The proposed impacts on the local environment, including the endangered Eucalyptus glaucina, are unacceptable. The negative impacts on the local roads, the villages of Paterson and Martins Creek and the neighbours to the quarry are also outrageous, and should not be approved. The proponent has time and again shown complete disrespect for the local community and for consent conditions, and cannot be trusted to operate within any conditions set if the project is approved. In addition the the above comments regarding the latest version of this project, I append my submission to the previous project when it was on exhibition. Despite having received that submission, Daracon have not bothered to approach my mother to discuss the way in which they have trashed the shared boundary and the native vegetation on her property. The concerns raised in the attached letter remain, despite the changes to the project. Thank you for the opportunity to make a submission, Regards, Siobhan
