Integrated Development Application No DA17/1092

To Whom it may Concern,

I wish to submit my objection to the above application for several reasons.

1. It will interfere with the quiet rural atmosphere in our village.
2. The extra traffic will create more congestion on our roads which are already under pressure with the new developments in Silverdale.
3. The flooding and drainage problems which we experience

4. Pollution from the crematorium. We already experience this in Winter due to chimney smoke.

This DA proposal is totally unacceptable for this area and our lifestyle will never be the same if this goes ahead.

Please give this your consideration and think of us ratepayers out here who are against this.

Yours Truly
