Dear Sirs

Proposed Staged Construction of Wallacia Memorial Park including Cemetery

I did attend a meeting at Wallacia Progress Hall to gain more information about the development .
I have received a letter from the Development Services Administration from Penrith Council asking if I wish to submit a submission ,which can be by email .

All I will do is put forward what my wife and I have discussed

bush I wished to raise my family
In a quiet area

, great neighbours , quiet area , everyone looks out for each other , Wallacia School ,
with composite classes , (100 students) Perfect

The area has changed a little , but still retains its country
feel and atmosphere

Daughter has married and moved to Canberra , eldest son engaged living in Annangrove , youngest son
just bought a house in South Penrith

Time for mum (who still works) and Dad to relax a bit , House just about paid off , after a lot of money
spent on renovations

Our major concerns are –

- 1, The traffic that will be generated on Park road by funeral traffic
- 2 The effect the Development will have on the resale value of our house . (After both working very
hard and raising our kids)

If we wanted to sell our house and relocate into a unit or to a coastal region , that possibility could be taken away from us due to the lower resale value
Our house would now possibly generate due to this development

To us that seems a little unfair
