Good afternoon Patrick

Thank you for notifying Fire & Rescue NSW (FRNSW) of the modification application submitted to the NSW Department of Planning & Environment by Caltex.

FRNSW have reviewed the application and we advise that we have no concerns with regard to the extension in time sought by Caltex for the proposed demolition of the butane facility.

Regards

Dear Patrick

After reviewing the relevant documents, OEH's Greater Sydney Planning Team has concluded that the matter does not contain biodiversity, natural hazards or Aboriginal cultural heritage issues that require a formal OEH response. We have no further need to be involved in the assessment of this project.

Please note that the Heritage Division in OEH may wish to provide separate comments.

Regards,

Marnie Stewart

Security Classification:UNCLASSIFIED

Hello Patrick,

Thanks for your e mail.

Since the Mod is only for extension of time and the work content is unchanged from the approval currently in place, the MHF unit of SafeWork has no Comment to make on the proposed MOD.

Regards

Dear Mr Copas

**Modification Application for State Significant Development Application (SSD 5544 – MOD 4)
Caltex Kurnell Refinery Conversion Works - Extension of Timing for Demolition Works**

I am writing in reply to your email to the Environment Protection Authority (EPA) dated 18 June 2018 seeking comments on the above modification application. The proposed modification seeks to extend the duration of the demolition period by ten months (until 10 June 2019) due to delays associated with the removal of butane infrastructure on the site.

The letter prepared by AECOM Australia dated 15 June 2018 states that over the past 18 months Caltex have been investigating options for the potential retention and reuse of the butane assets at the Kurnell Terminal site. Following a detailed internal review, Caltex has decided not to retain any of the butane assets at the site and intends to demolish these assets as originally consented under MOD 1 to SSD 5544.

Based on a review of the information provided and taking into consideration the existing approval conditions for the conversion project (SSD 5544 MOD 1), Caltex should continue to undertake the proposed demolition activities in accordance with the Demolition Environmental Management Plan and associated sub-plans. Caltex must ensure that all identified management and mitigation measures identified in these plans are implemented effectively to minimise any potential offsite impacts.

The EPA also advises that no amendments to Caltex's Environment Protection Licence (EPL 837) are required as a result of the proposed extension of time.

If you have questions regarding the above, please phone the contact officer on (02) 4224 4100.

Yours sincerely

Dear Sir/Madam

Development Referral No. DN18/0019

**Proposal: Section 4.55(1A) (SSD 5544 MOD 4) - Extend the duration of the
demolition period by an additional 10 months**

Property: 160-166 Captain Cook Drive, Kurnell

I refer to the above development proposal which was referred to Council for comment in accordance with the provisions of section 4.55 (1A) of the Environmental Planning and Assessment Act 1979.

Council has reviewed the proposal and has no objections to the proposed modification application to allow for a 10 month extension of time to complete the demolition works.

If you need any clarification of the above comments, please contact me directly on 9710 0149 or email lmariani@ssc.nsw.gov.au and quote the application number in the subject.

Yours faithfully

Leanne Mariani
