Meeting Notes:

The Commission sought a further meeting with the Applicant to review the Applicant's Risk Assessment for the Hume Coal and Berrima Rail Projects, and to confirm that it had indeed been carried out.

At the meeting with the Applicant on 12 March 2019, the Commission was provided with evidence that the Applicant had carried out a Risk Assessment for the Project.

The Applicant advised the Commission that the Risk Assessment contained sensitive commercial-in-confidence material and, on that basis, asked that the Assessment not be made public by the Commission.

After careful consideration of that request and in accordance with the Commission's Meeting Record Policy, the Chair of the Panel considering the Projects decided that the Risk Assessment should not be made publicly available.

The Commission has not retained a copy of the Risk Assessment.
