Good morning

I wish to lodge my objection to proposed changes to the Narrawallee sub division refernced above.

As a resident of nearby Seaspray St I have watched in recent years as vast tracts of bush have been cleared for this sub division. I did not object to the agreed sub division as I understand people need houses to live in, and I also live in a subdivision that was once bushland.

However I was pleased that a small area of bushland was preserved adjacent to what is now a completely treeless housing estate. This was a sensible and well balanced outcome of the previous agreement, and the bushland has been a small but welcome haven for residents and wildlife alike.

I strongly object to the proposal to change the previous agreement and remove the remaining bushland.

Yours sincerely

Rod Hoyer
