To the IPC,

This email is in response to the IPC's retraction of the approval of the Rix's Creek South Continuation of Mining Project, and the extension to the deadline to comment on the additional information from the Department of Planning, Industry & Environment.

The information on which the IPC is seeking comment relates almost entirely to information that has been previously available and supports the approval of the project. The length of time that the approval process has spanned over has taken its toll on workers and the community. The IPC should approve The Rix's Creek South Continuation of Mining Project (SSD 6300) without any further delay.

Regards,
Larissa

WE CARE. WE DELIVER.
