Noise and Vibration Impact Assessment

Table 2-1 Sensitive Receivers

Receiver / Catchment	Distance (m)
Bungarribee Residential	> 700
Lot 1 Great Western Highway, Eastern Creek (R1)	250
Eastern Creek Residential	> 800
Eastern Creek Primary School (S1)	750

Figure 2-2 Sensitive Receivers

Table 3-1 Existing ambient noise levels

Monitoring location	Represented receivers	Time period	Noise Levels (dBA)	
			RBL	L _{Aeq}
L1	Bungarribee, Eastern Creek	Day (7:00am – 6:00pm)	46	54
		Evening (6:00pm – 10:00pm)	45	51
		Night (10:00pm – 7:00am)	45	52
L2	R1	Day (7:00am – 6:00pm)	52	59
		Evening (6:00pm – 10:00pm)	51	58
		Night (10:00pm – 7:00am)	48	58

The dominate noise source during the measurement period was from the existing traffic noise associated with M7 and Great Western Highway.
