Dear Professor O'Kane

Glebe Island Silos Signage (DA 21/13182)

The Department has completed its assessment of the Part 4 Development Application (DA) for the Glebe Island Silos Signage.

The Department has referred the application to the Independent Planning Commission for determination as there more than 50 unique submissions objecting to the proposal submitted within the public exhibition period.

Based on its assessment, the Department believes that the project is approvable subject to the recommended conditions of consent.

I have attached a copy of the Department's assessment Report, recommended instrument of consent and other relevant documents for the Commission's consideration.

Further information about the project can be found on the NSW Planning Portal website:
