I wish to express my concerns about the new proposal put forward by Daracon .
I do not believe that 160 trucks a day will be any better than 280 . Still too much noise, dust and traffic . any expansion will still damage the local area.
These changes do not mitigate the impact to the local area of Paterson , Bolwarra and East Maitland .

Some of the information / answers provided to the commission are flawed , misleading and erroneous . (reports on acoustics and social impact)

Paterson's busy local King st Cafes do over 250 transactions 7 days a week not just on weekends , many people travel to Paterson for the tranquil surroundings and quaint village atmosphere , this will be destroyed should the trucks return , businesses and our way of life will be ruined .

School and preschool drop off and pick up will still be affected in Bolwarra and Paterson .

I have lived in the area for over 20 years and live within walking distance of the main rd in Paterson .
We do not need the extra quarry trucks back again , No one in the village wants them .
No body trusts Daracon to follow any guidelines . They have already bought land next to another local quarry .
Daracon have already profited millions from illegal operations in the past . There are numerous other more suitable quarries that can provide any rock / ballast needs.
Development has continued without it operating since 2019 .

Warm regards Jacqueline Brummell
