---

I would like to strongly object to the Bowmans Creek Wind Farm for the following reasons:-

- Very few people actually want to live near a wind farm but will not have any choice.
- Huge loss of value of nearby properties, making them virtually unsaleable.
- Loss of sleep and health complications to neighbours.
- Developers will refuse mounting evidence against wind farms and are not held liable for any loss of value to properties or peoples health.
- Effect on the level of stress hormones in animals and the huge potential of birds being killed.

Regards

**Robyn Crow**
