*All people that stand to be affected by the Birriwa Solar development have provided many examples that the proponent ACEN is very arrogant and disregards any and all of their concerns, as well as the community as a whole. There is nothing that resembles compromise from the developer, they want to barge through with their environment wrecking monster development and think that sponsoring a few local clubs will grant them social license.*

*ACEN is akin to an invading army that desecrates the homes and lives of the locals who live there.*
