**Topic 1. Sustainability of current and future forestry operations in NSW**

Not sustainable

**Topic 2. Environmental and cultural values of forests, including threatened species and Aboriginal cultural heritage values**

Native forests are earth’s airconditioners and create the important effect of cooling.

**Topic 3. Demand for timber products, particularly as relates to NSW housing, construction, mining, transport and retail**

Plantation timber and alternative products are now available.

**Topic 4. The future of softwood and hardwood plantations and the continuation of Private Native Forestry in helping meet timber supply needs**

Yes this is an option.

**Topic 5. The role of State Forests in maximising the delivery of a range of environmental, economic and social outcomes and options for diverse management, including Aboriginal forest management models**

Very important.

**Topic 6. Opportunities to realise carbon and biodiversity benefits and support carbon and biodiversity markets, and mitigate and adapt to climate change risks, including the greenhouse gas emission impacts of different uses of forests and assessment of climate change risks to forests**

We know these things are important.
