I was born in the southern highlands, & have family living throughout the region. I am fearful for the health of my children & grandchildren. The extra heavy traffic running through the region will cause major congestion to already busy local streets, not to mention the weight of the trucks will cause the roads to break up quicker. Council have trouble keeping up with road repairs as it is. The glaring obvious problem is just how close to town this proposed development is. They need to move this development as far away from civilization as possibly.
