I'm against this Plasrefine idea.

I'm a nine year old who attends school in the alert area. This is the wrong place for it. The fumes are toxic and bad for our health.

The Plasrefine factory could cause massive fires. How do you expect to evacuate a whole town? I would like to hear your proposal on how to evacuate a whole town. On behalf of all the schools in the alert area and our health YOU MUST LISTEN! Also for the sake of the kids at my school, WE DO NOT WANT MASSIVE TRUCKS AROUND OUR SCHOOL! It is barely a one car lane! All the kids at my school want to get home safely and if you allow trucks down near our school, it makes it unsafe. Allowing massive trucks down near schools is a safety issue. This proposal will affect other business such as real estate. They can't sell homes because nobody wants to live near the proposed factory.

This will affect over twelve thousand people.

This is the WRONG site, as I already said YOU MUST SAY NO!
