*I will be directly affected by this development. I live nearby and go to school here in Moss Vale. I am frightened of the impact this will have on my life, on the environment and on my town. What about the pollution and microplastics that the factory will produce? What if there is a fire? The environment will be damaged forever and the earth poisoned. You must not allow this dangerous building in our town. You must stop this from happening here so close to houses and my school.*
