Submission date: 11/18/2024 4:28:00 PM

I can't believe this form doesn't consider the major objections being that this proposal is from a bizarre small company, it will ruin Sydney's drinking water (of which I'm a resident in) and it'll destroy a major tourist area and community of hard working amazing people. I think the oversight top of considering Moss Vale a budding future area for Sydneysiders my age moving down there to raise children has been grossly disregarded too. Approve this factory and you'll destroy a strong and profitable area and community for profit which is disgusting considering how much empty areas of land in NSW this plant could be moved to - or not at all because I'm still scratching my head on why this is needed or benefiting the local and wider communities in NSW.
