*There are ~9,500 residents in Moss Vale and 51,000 in the Wingecarribee shire. This recycling plant would negatively impact the livelihoods of all these people, as well as tourists visiting the Southern Highlands (not to mention, taking away it's serene, heritage charm). The plant would bring excessive traffic to the area, create pollution that would effect both the health of residents and the natural environment.*

*Please build this recycling plant but SOMEWHERE ELSE!*

*In all of Australia's 7,688,287 km2, you can certainly find a different, better-suited location.*
