Dear Commissioners,

I object to the proposed plastic refinery in Moss Vale on the following grounds:

- 1. It is too close to a residential area.*
- 2. The development is also close to school and childcare centres- within a 5 Km radius.*
- 3. The environmental impact of air pollution and toxic fumes from the breakdown of plastic extremely harmful to humans.*
- 4. The long term risks of microplastics on vulnerable children is alarming. My daughter in Sutton Forest has been extremely careful with her children and what they consume including not letting them even drink out of a plastic bottle.*
- 5. Potential contaminated water run off will possibly enter the Wingecarribee river which is part of the Sydney water catchment.*

I am deeply concerned for the future health of my children and grandchildren and implore you to block the application for the proposed recycling refinery as a matter of urgency.
