Moss Vale is a town of extreme growth constantly filling with young families like us with young kids who value their children being able to grow up in a clean healthy natural environment void of unnecessary harmful toxins and environmental risks. This commercial toxin releasing project falls close to our house and right where our children ride their bikes. Please move to block this harmful development site that will negatively impact the lives of thousands of families and move it to a much more remote area far away from our beautiful rich and dense family community.
