I am against plasrefine on so many levels:

- increase in traffic flow on an already busy road, increased noise and congestion. Up to 100 large truck movements daily is unacceptable.

-Location and scale is inappropriate for this site.

- Environmental risks. Poses risks to water quality, wildlife and public health.

- Visual impact and pollution.

This industrial scale Facility is at odds with Our communities Vision For sustainable development.

Find an alternative solution. This facility does not belong in the beautiful Southern Highlands of New South Wales.

Kind regards,
